

SLIDE 1 — COVER

- **GRENSHADOW AGRI-ALLIED PVT. LTD.**
 - **From Kerala to Global Markets**
 - Spices • Agricultural Products • Processed Food

 - **Investment & Working Capital Proposal**
 - Thiruvananthapuram, Kerala, India
 - Website: greenshadowagri.com
 - Company logo + factory photo.
-

SLIDE 2 — EXECUTIVE SUMMARY

key facts:

- **Greenshadow at a glance**
 - Established agricultural/spice processing and export-oriented company
 - Factory infrastructure substantially completed
 - Company operates from its **own land**
 - No recurring factory rent burden
 - Existing bank financing of approximately **₹6.5 crore**, under repayment
 - Located approximately **25 km from Vizhinjam International Seaport**
 - Promoter brings **15+ years of experience in the spices sector**
 - Existing export credentials and certifications
 - Immediate requirement: **final equipment + factory infrastructure + working capital for raw-material procurement**

(This will be a very strong opening)

SLIDE 3 — THE COMPANY

(Explain here, what Greenshadow is doing)

➤ Include:

Company

Greenshadow Agri-Allied Pvt. Ltd.

Business

- Spices
- Agricultural products

- Processed/package products
- Export-oriented operations

Location

Anavoor / Thiruvananthapuram, Kerala

Website

Company website

Ownership

Promoter/shareholding structure

Factory

Own property

(Details such as company registration details, CIN, and the year of incorporation can also be provided here in a small box)

SLIDE 4 — WHY THIS LOCATION IS A STRATEGIC ADVANTAGE

(We can use a map visual)

Show:

Factory → Vizhinjam International Seaport

≈ 25 km

- At the same time:
- Access to international shipping infrastructure
 - Lower inland transportation distance to port
 - Export-oriented logistics advantage
 - Own industrial/factory property
 - No monthly factory rent

“Own facility + strategic proximity to Vizhinjam = lower structural operating burden and export logistics advantage.”

(Instead of asserting that “logistics costs are low,” it is more appropriate to speak of a “potential advantage in the logistics sector.”)

SLIDE 5 — WHAT HAS ALREADY BEEN BUILT

➤ *Heading:*

“The Business Is Not Starting From Zero.”

Factory construction/infrastructure photos should be posted here.

➤ *Visually:*

Land → Factory → Infrastructure → Certifications → Machinery → Operations

Example

- Own land
 - Factory building
 - Basic infrastructure
 - Processing setup
 - Electrical infrastructure
 - Lighting
 - Computers & IT ✓ / pending
 - Certifications
 - Export readiness
 - Working capital → **Required**
 - Raw-material procurement → **Required**
-

SLIDE 6 — CURRENT STATUS: 99% COMPLETE

(Here, rather than stating "99% complete" in absolute terms...)

➤ **“Factory development is substantially complete and the company is approaching commercial operational readiness.”**

(The investor might ask later what has been completed and what remains to be done; therefore, refer to the table below:)

Area	Status
Land	Completed
Building	Completed
Major infrastructure	Substantially completed

Area	Status
Factory lighting	Pending
Computers / IT	Pending
Other essential equipment	Pending
Raw-material working capital	Required
Commercial operations	Ready to commence after final requirements

SLIDE 7 — FUNDING REQUIREMENT

(We need the exact requirement breakdown here)

➤ **Example structure:**

Total Funding Required: ₹ X Crore

1. Essential Equipment

₹ XX lakh

- Computers
- Factory lighting
- Electrical/technical equipment
- Other operational equipment

2. Working Capital

₹ XX crore

Primarily:

Raw material procurement

3. Initial Operating Expenses

₹ XX lakh

- Packaging
- Transport
- Testing
- Documentation
- Initial salaries

- Utilities
- Export logistics

4. Contingency

₹ XX lakh

TOTAL

₹ X.XX crore

(Important: We should not guess these numbers right now. The exact amount should be entered after collecting the actual quotations.)

SLIDE 8 — WHY WORKING CAPITAL IS THE KEY REQUIREMENT

Show the cycle:

Farmer / Supplier

↓

Raw Material Purchase

↓

Processing

↓

Packaging

↓

Export

↓

Buyer Payment

(This needs to be explained here:

The company requires sufficient working capital to purchase raw materials in advance and maintain uninterrupted production and export cycles)

SLIDE 9 — RAW MATERIAL SOURCING ADVANTAGE

➤ Promoter's sourcing network

- 15+ years experience in spices sector
- Multilingual communication capability
- Relationships with farmers across different regions of India

- Direct sourcing potential
 - Access to tribal/agricultural producer communities
 - Potential reduction of unnecessary intermediary layers
 - Better traceability and sourcing control
-

SLIDE 10 — PROMOTER / MANAGEMENT

❖ **Sajin Kumar Yesudas**

Founder / Promoter

15+ Years – Spices & Agricultural Products

Key strengths:

- Industry experience
- Farmer network
- Multilingual communication
- Sourcing relationships
- Product knowledge
- Export/business development experience

(If there is a photo, it should be a professional photograph.)

SLIDE 11 — PRODUCT PORTFOLIO

➤ *(We should use the actual products listed on the company website here.)*

For example:

- Black Pepper
- Cloves
- Cardamom etc.
- Dry fruits
- Cashews
- Raisins
- Masala / grocery products

*(include: **Only products actually planned for commercial production/export**)*

SLIDE 12 — MARKET & EXPORT OPPORTUNITY

Here:

➤ **Target Markets**

- ❖ us USA
- ❖ UAE / Dubai
- ❖ Other international markets

It needs to be pointed out here.:

“The company previously received export enquiries/orders from buyers in the USA and Dubai. Certain orders subsequently expired due to delays associated with facility completion and funding constraints.”

This is the truthful wording.

After that:

The company intends to re-engage with these buyers following operational readiness.

Explain

SLIDE 13 — US BUYER RELATIONSHIP

There is no need to hide from the investor the fact that the US buyer is a close relative, but one should not exaggerate this into a commercial strength.

Better:

Existing Buyer Relationship

- Existing relationship with a US-based prospective buyer
 - Previous order/engagement
 - Order could not be fulfilled within the required timeframe due to operational/funding constraints
 - Company plans to re-engage following commencement of operations
-

SLIDE 14 — CERTIFICATIONS & COMPLIANCE

- IEC
- FSSAI
- APEDA
- Other applicable certifications

Everything must be displayed here with logos, certificate numbers, and validity dates.

Example:

Certification Status Validity

IEC Active Date

FSSAI Active Date

APEDA Active Date

Other Active Date

SLIDE 15 — BUSINESS MODEL

➤ **Business Model**

Source → Process → Pack → Export → Receive Payment

➤ Revenue comes from:

- Domestic sales
- Export sales
- B2B supply
- Private label / institutional supply — if actually planned

Gross Margin

(The projected margin is required here)

Example

Raw material

- processing
 - packaging
 - logistics
 - export expenses
- = landed cost

Selling price

– total cost

= gross contribution

SLIDE 16 — FINANCIALS

3–5 Year Projection

	Year 1	Year 2	Year 3	Year 4	Year 5
Revenue					
COGS					
Gross Profit					
Operating Expenses					
EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortization)					
Interest					
PAT					

Along with this:

- Break-even
- EBITDA margin
- Working capital cycle
- Debt service
- DSCR
- Cash flow

SLIDE 17 — EXISTING ₹6.5 CRORE BANK LOAN *(Do not hide)*

Demonstrating transparency enhances credibility.

Existing Financial Commitment

Existing Bank Loan: approximately ₹6.5 crore

Status: Repayment ongoing

Along with this:

- Original sanction amount
- Current outstanding
- Monthly EMI
- Interest rate

- Remaining tenure
 - Security/collateral
 - Repayment track record
 - Current overdue status — ideally **Nil**, if true
-

SLIDE 18 — COST ADVANTAGE

➤ **Structural Cost Advantages**

1. Own Land

→ No factory rent

2. Existing Infrastructure

→ Major initial investment already undertaken

3. Rural Location

→ Potentially competitive labour costs

4. Direct Farmer Sourcing

→ Potential intermediary reduction

5. Proximity to Vizhinjam

→ Potential export logistics advantage

SLIDE 19 — SOCIAL / LOCAL ECONOMIC IMPACT

Greenshadow can contribute to:

- Local employment
- Women's employment opportunities
- Farmer market access
- Direct agricultural procurement
- Rural economic activity
- Export earnings
- Kerala-based value addition
- Utilisation of Vizhinjam-linked export infrastructure

(The main business case should be based on profitability)

SLIDE 20 — INAUGURATION / COMMERCIAL LAUNCH

(can outline the inauguration plan here)

➤ “Commercial Launch – September 2026”

Proposed inauguration ceremony

“The company is targeting formal inauguration and commencement of commercial operations during September 2026.”

If Chief Minister V. D. Satheesan has been invited:

“The company plans to invite / has proposed the Hon'ble Chief Minister of Kerala, Shri V. D. Satheesan, to inaugurate the facility.”

Only if there is confirmed acceptance:

“The facility will be inaugurated by...”

SLIDE 21 — FUNDING ASK

FUNDING REQUIREMENT

₹ X.XX CRORE

Use of Funds

- Essential equipment
- Factory completion items
- IT infrastructure
- Working capital
- Raw-material procurement
- Initial operating requirements

Expected Outcome

Funding → Operational Readiness → Raw Material Procurement → Production → Sales → Export → Cash Flow → Debt Servicing & Growth

SLIDE 22 — THE INVESTMENT CASE

➤ Final summary:

Why Greenshadow?

01 — Established Infrastructure

Factory substantially completed

02 — Existing Asset Base

Own land and facility

03 — Experienced Promoter

15+ years spices experience

04 — Farmer Network

Direct sourcing potential

05 — Export Readiness

IEC / FSSAI / APEDA etc.

06 — Strategic Location

~25 km from Vizhinjam

07 — Existing Market Relationships

USA / Dubai buyer relationships

08 — Clear Funding Requirement

Defined capex + working capital requirement

09 — Revenue Opportunity

Domestic + international markets
